The Neurobiopsychology Research Group (Prof. Dr. Peter König) of the Institute of Cognitive Science invites applications for

1 Research Associate (m/f/d)
(Salary level E 13 TV-L, 75 %)

to be filled by October 1, 2019 for a period of three years.

**Description of Responsibilities:**
The position involves participation in research on sensory processing and sensorimotor integration under natural conditions. This requires the recording of behavior (eye and body movements) and neuronal activity (EEG) in fully mobile conditions combined with developing and utilizing advanced methods of data analysis.

The position includes teaching Cognitive Science courses at B.Sc. and M.Sc. level (3 hours/week) and allows for further academic qualification.

**Required Qualifications:**
Applicants are expected to have an excellent academic degree (Master/Diploma) in Cognitive Science or related fields. They must have a profound knowledge of the neurophysiology of cognitive processes and extensive experience in conducting complex physiological experiments. Furthermore, a high level of programming skills for data analysis in Matlab/Python/R is required. Finally, a good command of the English language is expected.

Osnabrück University has been certified as a family-friendly university committed to helping working/studying parents and carers balance their family and work life.

The university aspires to ensure equal opportunities for men and women and strives to work towards a gender balance in schools or departments where new appointments are made.

If equally qualified candidates apply, preference will be given to those with special needs.

Applications with the usual documentation should be submitted by e-mail in a single PDF-file to Prof. Dr. Peter König (pkönig@uni-osnabrueck.de) with a cc to office@ikw.uni-osnabrueck.de no later than **August 7, 2019**. Further information can be obtained from Prof. Dr. Peter König (pkönig@uni-osnabrueck.de).
